Technical proposal (Envelope 1)

Tender GCD/T/2026/061 · Laboratory Information Management System (LIMS)

To: The Chair, Tender Committee, General Customs Directorate

Having examined the tender documents for GCD/T/2026/061, we, Veridane Informatics B.V., submit our technical proposal. This envelope contains no prices; our prices and commercial terms are in Envelope 2.

Ingrid Vos
Managing Director, Veridane Informatics B.V.

Date: 16 December 2026
Reference: VI-2026-GCD-061

SAMPLE · FICTIONAL

1. Company and references

Veridane Informatics develops Veridane LIMS, a cloud LIMS used by 140 laboratories in 22 countries, from food and environmental testing to customs and forensic laboratories. Our 180 staff work from Utrecht and Lisbon; in the Gulf we work with our implementation partner Crescent Digital (Al-Noor).

Reference	Scope	Year
Northern Customs Laboratory (ISO/IEC 17025)	120 users, 30 instruments	2021
Coastal Environmental Laboratory (ISO/IEC 17025)	70 users	2023
Regional Forensic Institute (ISO/IEC 17025)	90 users, chain of custody for evidence	2025

2. Technical solution

Veridane LIMS (software as a service) includes:

- Sample reception with barcodes, storage management and a full chain of custody.
- Methods, worklists, instrument queues and turnaround-time analytics.
- Calculations, specification limits and out-of-specification workflows.
- Configurable review and approval chains with electronic signatures (password re-entry, signature bound to the record).
- Certificate templates in any language, including Arabic.
- A quality module for ISO/IEC 17025: method validation, uncertainty budgets, equipment calibration, training and competence.

Instruments. Veridane Connect agents installed in the laboratory send the results of all 14 instruments to the cloud.

CDS integration. Real-time REST and webhook integration, configured by Crescent Digital.

3. Security and data

Hosting. Veridane LIMS runs in our ISO 27001 certified cloud on a public cloud provider in the European Union (Ireland), with a dedicated database for the Directorate. Data is encrypted in transit and at rest.

- Every change is recorded in an audit trail (user, time, reason) that cannot be edited; it is kept for the life of the subscription and exported to the customer at the end.
- Sign-in with single sign-on (SAML) through the Directorate's identity provider; role-based permissions.
- Continuous backups with point-in-time recovery; restores are tested every quarter.

4. Implementation and timeline

Milestone	Month
Tenant set-up and configuration	1–3

SAMPLE · FICTIONAL

Instrument agents and CDS integration	3–5
Data migration, user acceptance testing	5–6
Go-live	6

Validation. We provide our validation pack: the vendor IQ/OQ executed on our platform, plus PQ templates for the laboratory to complete with its own data.

Training. Online academy for all users, and a 2-day administrator course for 3 key users.

5. Support, warranty and SLA

Warranty. Covered by the subscription for its whole term.

Support. 24/7 ticket portal; response within 8 business hours (CET) for critical faults. Crescent Digital provides first-line support in Al-Noor.

SAMPLE · FICTIONAL

Annex A. Compliance matrix (Annex 1 of the RFP)

Clause	Requirement	Response	Offered
2.1	45 named users	Comply	§2
2.2	14 instrument interfaces	Comply	All 14 through Veridane Connect (§2)
2.3	CDS integration	Comply	§2
2.4	Implementation, migration, validation, training, support	Comply	§4
3.1	Sample reception, barcodes, chain of custody	Comply	§2
3.2	Worklists, turnaround-time tracking	Comply	§2
3.3	Calculations, limits, OOS flags	Comply	§2
3.4	Two-step approval with e-signatures	Comply	§2
3.5	Certificates in Arabic and English	Comply	§2
3.6	ISO/IEC 17025 records	Comply	§2
4.1	Hosted in the Directorate's data centre	Partially comply	EU cloud, dedicated database (§3)
4.2	Audit trail, kept 10 years	Comply	§3
4.3	Active Directory, separate roles	Comply	SAML single sign-on (§3)
4.4	Direct instrument result transfer	Comply	§2
4.5	CDS REST integration, real time	Comply	§2
4.6	Daily backups, restore test every 6 months	Comply	Continuous backups (§3)
5.1	Go-live ≤ 9 months	Comply	Go-live month 6 (§4)
5.2	IQ/OQ/PQ by the supplier	Partially comply	Vendor IQ/OQ; PQ templates (§4)
5.3	Training: 45 users, 3 administrators	Comply	§4
5.4	3-year support, 4 h response	Partially comply	8 business hours (§5)
5.5	Warranty ≥ 12 months	Comply	Subscription term (§5)
6.1	≥ 3 accredited-lab implementations	Comply	§1
6.2	Office or partner in the State	Comply	Crescent Digital (§1)
