Technical proposal (Envelope 1)

Tender GCD/T/2026/061 · Laboratory Information Management System (LIMS)

To: The Chair, Tender Committee, General Customs Directorate

Having examined the tender documents for GCD/T/2026/061, we, Corvantis Business Software Ltd, submit our technical proposal. This envelope contains no prices; our prices and commercial terms are in Envelope 2.

Elena Charalambous
Sales Director, Corvantis Business Software Ltd

Date: 16 December 2026
Reference: CBS-0061-2026

SAMPLE · FICTIONAL

1. Company and references

Corvantis Business Software develops Corvantis ERP for mid-size organisations: finance, procurement, inventory and quality control. Corvantis ERP is used by 300 companies in Europe and the Middle East. Our Lab module is in use at a food producer's quality-control laboratory. In the Gulf we sell and install through our regional reseller, Bayside Systems (Al-Noor).

Reference	Scope	Year
Mediterranean Foods Group	ERP with the Lab module for its quality-control laboratory, 20 users	2023
Bluegate Logistics	ERP finance and inventory	2024
Cedarline Retail	ERP procurement and inventory	2025

2. Technical solution

Corvantis Lab is a module of Corvantis ERP for laboratory work:

- Sample registration with barcode labels, linked to the inventory module for storage locations.
- Test plans per product, worklists and due dates.
- Results entry with calculations and specification limits; out-of-specification results are highlighted.
- Approval of results by a user with the approver role.
- Certificates of analysis from templates, in English; other languages can be added as templates.

Instruments. Results are entered by the analysts. A CSV import for instrument exports is planned for version 12.

CDS integration. Through the ERP's standard REST API.

3. Security and data

Hosting. Corvantis ERP is installed on the Directorate's servers (on premise).

- Changes to results are logged with the user and time; the change log is kept for 24 months.
- Sign-in with Active Directory; ERP roles and permissions.
- Backups use the Directorate's standard database backup.

4. Implementation and timeline

Milestone	Month
Installation and configuration	1–2
Data import from spreadsheets	3
Training and go-live	4

Training. 3 days of on-site training for key users, who then train the other users.

SAMPLE · FICTIONAL

5. Support, warranty and SLA

Warranty. 6 months after go-live.

Support. Help desk by e-mail and phone from Limassol, Monday to Friday, with a response on the next business day.

SAMPLE · FICTIONAL

Annex A. Compliance matrix (Annex 1 of the RFP)

Clause	Requirement	Response	Offered
2.1	45 named users	Comply	§2
